COLONEL JUSTIN J. DINTINO
Superintendent

Dear Reader:

New Jersey is ranked as one of the safest states in the nation. We believe the major factors contributing to this achievement are the continuing alcohol awareness programs, the mobile D.W.I. patrols, the sobriety checkpoints, the safety belt use law, and the 55 M.P.H. speed enforcement programs.

This report constitutes a detailed review of the causes and results of fatal accidents throughout the state during 1990. Hopefully, the continued efforts and cooperation of the public, federal, state, and local agencies will help us maintain our traffic safety record in the years ahead.

It is essential that the law enforcement community be firmly committed to the 55 M.P.H. speed enforcement programs. We are convinced that this will save lives.

On the following pages you will find statistics of the fatal traffic accident records compiled by the Fatal Accident Unit of the Division of State Police for 1990.

Sincerely,

Justin J. Dintino

Negative: Tested and found to be negative.

No Test: Because of delayed death, age factor, contamination of samples, and the failure on the part of some investigative agencies and medical examiners to cause test to be performed on victims.

Note: Superior number indicates number of victims tested positive for drugs.
